

# Title of the book: subtitle of the book

PUBLISHER, YEAR OF PUBLICATION, NUMBER OF PAGES.

When writing, use the styles embedded in this document. If you paste in text from another document, you will need to format the text using one of the embedded styles. Mark the text, and choose the relevant style from the toolbar or style menu. Use 'Scandia heading' for the book's title; 'Scandia publisher information' for the publisher, year of publication and number of pages, 'Scandia normal' for the first paragraph; and 'Scandia normal indented' for subsequent paragraphs. Your name should appear at the end of the review, formatted with the 'Scandia author name' style.

Do not use blank lines, or any indents other than those provided. If at all possible, avoid using your own subheading levels, footnotes, and long quotations. Consistent text formatting makes for swifter publication. If you are uncertain, it is perfectly in order to submit your review unformatted.

On Scandia's home page you can find and download a longer document, 'Writing for Scandia', with detailed instructions for submissions. Your review should be between 500 and 1,000 words in length.

NB: The instructions in this document should be deleted after you have read them, so that they are not included in your finished document.

**Comment [1]:** Again, there needs to be an English version of the template with English names for the styles (see the other files too)
